Sponsored by the Office Human Resources & the Hudson Center of Entrepreneurship and Executive Education

Lean Six Sigma Yellow Belt Certification provides insight into the techniques of Six Sigma and Lean concepts, its metrics and improvement methodologies.

Participants will

- Explore each phase of Six Sigma's Design, Measure, Analyze, Improve, and Control (DMAIC) methodology
- Learn to use tools such as project charters, process mapping, and cause-and-effect analysis
- Discover basic control methods for new processes
- Understand change management and its effect on process improvement

Participants who complete the course will be able to identify process improvement opportunities within their school and can be a valuable resource when improving those processes.

Program Fee:

Regular Registration: *Up to and including* December 4: \$462.50

Late Registration: *Beginning* December 5: \$492.50

This **half price rate** is for NSU employees only and includes textbook, instructional materials, lunch, certification as a Lean Six Sigma Yellow Belt, and a certificate suitable for framing.

Register early-only 30 spots available!
