Florida's First Choice for Autism Support

Autism currently impacts 1 in 68 children in the US according to the CDC.

That is one in every 42 boys and one in every 189 girls.

If those numbers are accurate, over 50,000 people in Miami-Dade, Broward and Monroe may have autism.

CARD is currently reaching nearly 9,400 families to provide free support services, and last year alone over 800 new families came to CARD for help.

Together, we can make a difference in helping to improve the lives of people with an autism spectrum disorder.

CARD provides the following services to their families:

- Individualized Client and Family Support
- Family and Professional Training
- Public Education and Awareness and Community Outreach
- Programmatic Consultation and Technical Assistance

For more information about CARD services contact us at:
