“A Safer Approach to Work, Life and Sport”

#NATM2016

March is National Athletic Training Month and what better way to celebrate than to join us for a free CEU event learning from one of the best AT's in the business!?

Please join the NSU ATEP in welcoming Hall of Fame Athletic Trainer Dr. Larry Starr as he discusses the importance of work life balance from a career in Athletic Training. Larry's experiences over the course of a professional career to the development of Athletic Training here at NSU bring a wealth of knowledge for all health care professionals to benefit from.

For more details please email: Dr. Pradeep Vanguri: pv101@nova.edu
